*Secondary School Approaches to Address Space Deficits at
Walter Johnson Cluster Secondary Schools*

March 2, 2016

Approach 1: Construct Additions

Approach 2: Reopen Woodward as a Grades 9-12 High School

Approach 3: Reopen Woodward as a Grades 9–10 High School

Approach 4: Reopen Woodward as a Grades 8–9 School

Approach 5: Use Nearby Commercial Space as a Grade 9 or 9/10 Annex

Approach 6: Alternative Schedule

Approach 7: Online Education

Approach 8: New middle and high schools

Walter Johnson Cluster Roundtable Discussion Group

Secondary School Approaches to Address Space Deficits at

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 1: Construct Additions

- Expand Walter Johnson HS for a capacity of 3000 students in six-year CIP
- Master plan Walter Johnson HS for a capacity of 3600 students to accommodate future enrollment
- Eventually expand North Bethesda MS for a capacity of 1350 students to accommodate future enrollment
- Eventually expand Tilden MS for a capacity of 1500 students to accommodate future enrollment
- Core spaces would be provided to accommodate the appropriate student enrollment

Program Considerations

- Consider academies or schools within a school at the high school to create smaller learning communities
- Consider smaller grade level teams at middle schools
- Increased course and program offerings at the high school level

SCHOOLS	Projected Enrollment*									
	2017-18	2018-19	2019-20	2020-21	2021-22	2025	2030	2035*	2040*	2045**

				<i>Rev/Ex Comp.</i>				<i>Proposed Addition</i>		

Note: FY 2018 planning funds are currently included in the Walter Johnson HS Cluster Solution.

* Projections from 2035 to 2045 assume complete build-out of White Flint and Kensington sector plans and proposed housing not associated with these sector plans. Total build-out includes 115 single-family detached units, 115 townhouse units, 350 multi-family mid-rise units, and 14,334 multi-family high-rise units. Market conditions and the pace of redevelopment of existing properties could change the number of units built and the timing of full build-out. Most master plans never reach full build-out.

**The projection for 2045 considered peak enrollment. However, the projection for 2045 does not include White Flint II and Rock Spring sector plans, because housing unit counts for these plans are not known at this time. The longer the forecast period, the more error is possible. It is considered equally likely for enrollment to come in below the numbers as it is for enrollment to exceed them.

Walter Johnson Cluster Roundtable Discussion Group

Secondary School Approaches to Address Space Deficits at

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 2: Reopen Woodward as a Grades 9-12 High School

- Reopen Woodward High School as a Grades 9–12 school
- The earliest the project could open is 2022–23 after the Tilden Middle School revitalization/expansion is complete
- Eventually expand North Bethesda MS for a capacity of 1350 students to accommodate future enrollment
- Eventually expand Tilden MS for a capacity of 1500 students to accommodate future enrollment
- Funding required for replacement of Woodward Holding Center

Program Considerations

- Consider a special program to increase enrollment at Walter Johnson HS
- Consider choice between Walter Johnson and Woodward high schools
- Create smaller grade level teams at middle schools
- Reduced course and program offerings available at smaller sized high schools

SCHOOLS	Projected Enrollment									
	2017–18	2018–19	2019–20	2020–21	2021–22	2025	2030	2035*	2040*	2045**

Walter Johnson Cluster Roundtable Discussion Group

Secondary School Approaches to Address Space Deficits at

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 4: Reopen Woodward as a Grades 8–9 School

- Reopen Woodward High School to serve Grades 8–9 students
- The earliest the project could open is 2022–23 after the Tilden Middle School revitalization/expansion is complete
- Walter Johnson High School would serve Grades 10–12 students; master plan addition for 2700 students long-term
- North Bethesda and Tilden middle schools would serve Grades 6–7 students
- Remove North Bethesda Middle School addition from current CIP as additional capacity would not be required
- The Tilden MS revitalization/expansion capacity would be designed for 1000 students
- Funding required for replacement of Woodward Holding Center

Program Considerations

- Provide transportation when needed for students to attend specialty/singleton classes
- Creates two schools (Grades 6–7 and Grades 8–9) with only two grade levels
- Staffing and program implications with the Grades 8–9 school (middle and high school level in one school)

SCHOOLS	PROJECTED ENROLLMENT

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 5: Use Nearby Commercial Space as a Grade 9 or 9/10 Annex

- Lease or purchase commercial space in Rock Springs area for Grade 9 or Grades 9/10 students
- Walter Johnson High School would serve Grades 9/10–12 students
- Eventually expand North Bethesda MS for a capacity of 1350 students to accommodate future enrollment
- Eventually expand Tilden MS for a capacity of 1500 students to accommodate future enrollment
- Could be a short-term or long-term solution

Program Considerations

- Consider Grades 9/10 students attending the annex for half the day and the main campus for half the day; half the grade attends annex in morning and then walks back to main campus; students switch during lunch to walk to the other campus
- Consider Grade 9 attending annex for full day; walk to main campus for singleton classes

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 6: Alternative Schedule

- Extend operating hours of school to provide split sessions to utilize building for two sessions
- Walter Johnson High School would serve Grades 9–12 students
- Provide a morning and an afternoon session
- Eventually expand North Bethesda MS for a capacity of 1350 students to accommodate future enrollment
- Eventually expand Tilden MS for a capacity of 1500 students to accommodate future enrollment

Program Considerations

- Impact on after school activities such as athletics and clubs
- Impact on specialty classes such as music and theater
- Implications for school operation such as transportation, exam schedules, school delays, and staffing
- Consider strategies to encourage significant enrollment online

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 7: Online Education

- Encourage all Grade 12 students to take half their course load online; attend school half day
- Walter Johnson High School would serve Grades 9–12 students
- Begin implementation in 2018–19 with fewer students
- Expand Walter Johnson High School to 3200 students
- Eventually expand North Bethesda MS for a capacity of 1350 students to accommodate future enrollment
- Eventually expand Tilden MS for a capacity of 1500 students to accommodate future enrollment

Program Considerations

- Provide sufficient number of course offerings to accommodate student need

Walter Johnson Cluster Secondary Schools

March 2, 2016

Approach 8: New middle and high schools

- Purchase site for a new middle school and a new high school
- Walter Johnson High School and the new high school would serve Grades 9–12
- Open new middle school with a capacity for 1000 students by 2025; utilize relocatables until new school opens
- Walter Johnson High School and the new high school would serve Grades 9–12
- Remove North Bethesda Middle School addition from current CIP as additional capacity would not be required
- The Tilden MS revitalization/expansion capacity would be designed to the current capacity of 939

Program Considerations

- Creates three smaller middle schools in the long-term
- Reduced course and program offerings available at smaller sized high schools

SCHOOLS	PROJECTED ENROLLMENT

* Projections from 2035 to 2045 assume complete build-out of White Flint and Kensington sector plans and proposed housing not associated with these sector plans. Total build-out includes 115 single-family detached units, 115 townhouse units, 350 multi-family mid-rise units, and 14,334 multi-family high-rise units. Market conditions and the pace of redevelopment of existing properties could change the number of units built and the timing of full build-out. Most master plans never reach full build-out.

**The projection for 2045 considered peak enrollment. However, the projection for 2045 does not include White Flint II and Rock Spring sector plans, because housing unit counts for these plans are not known at this time. The longer the forecast period, the more error is possible. It is considered equally likely for enrollment to come in below the numbers as it is for enrollment to exceed them.
